

### REMARKS

This is a full and timely response to the outstanding non-final Office Action mailed February 2, 2005. Reconsideration and allowance of the application and pending claims are respectfully requested.

Applicant appreciates the Examiner's indication that claims 5-9 and 36-44 are allowed, and that claims 3, 4, and 12-14 would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.

Through this Response, Applicant has amended independent claims 1, 10, 32, and 34 to recite a "two-terminal drain-gate-connected" modified flash cell, which, as was indicated by the Examiner, is not taught or suggested by the prior art. In addition, Applicant has and has canceled claims 30-31, 33, and 35, among others. It is therefore respectfully submitted that each of the claims that remains in the application is presently in condition for allowance. Applicant reserves the right to present canceled claims and previous variants of remaining claims in continuing applications to be filed subsequently.

### CONCLUSION

Applicant respectfully submits that Applicant's pending claims are in condition for allowance. Favorable reconsideration and allowance of the present application and all pending claims are hereby courteously requested. If, in the opinion of the Examiner, a telephonic conference would expedite the examination of this matter, the Examiner is invited to call the undersigned attorney at (770) 933-9500.

Respectfully submitted,
